

**POSITION POSTING
COMMUNITY GROUNDWORKS, INC.
GARDENER-IN-RESIDENCE**

Community GroundWorks, a non-profit organization that connects people to nature and local food, is looking to hire a ***Gardener-in-Residence***.

About Community GroundWorks and the Gardener-in-Residence Program

Established in 2001 as the Friends of Troy Gardens, Community GroundWorks, Inc. (CGW) is a non-profit organization dedicated to healthy food access and connections to nature. Among several other programs, our organization stewards Troy Gardens, a 26 acres site of urban green space comprised of an organic farm, prairie, community gardens, kids' garden, woodland, and food forest.

The Gardener-in-Residence (GiR) will teach garden classes to a diverse, 4K-5th grade student population in school gardens. Following best practices in the field of garden-based education, the Gardener-in-Residence will serve as the primary garden instructor at four school gardens, providing garden lessons to classes in spring and fall. The GiR will collaborate with school administration, staff, students and families to ensure the school garden serves as a thriving teaching resource to the school community.

During the summer months, the GiR will develop and lead engaging gardening, cooking, and art activities for Madison area youth at Troy Gardens Day Camp on Madison's northside, in addition to maintaining the school garden sites.
